

Our C is faster than your C.TM

Validated
faster in *two* US
clinical trials

■ Patent pending 90+%
acid *neutralized* (better
than "buffered")
composition means
easier on the stomach.
Better tolerability means
greater compliance.

■ Under exclusive license
to the proven &
patented bioavailability
booster BIOPERINE®, the
Fast-C formula is shown
to be faster absorbed &
equally retained.

*BIOPERINE® is a registered trademark of
Sabinsa Corporation.

Find out how to
make *Fast-C*TM
deliver for you:

800-442-4676

The E.T. Horn Company,
exclusive distributor of Fast-C.

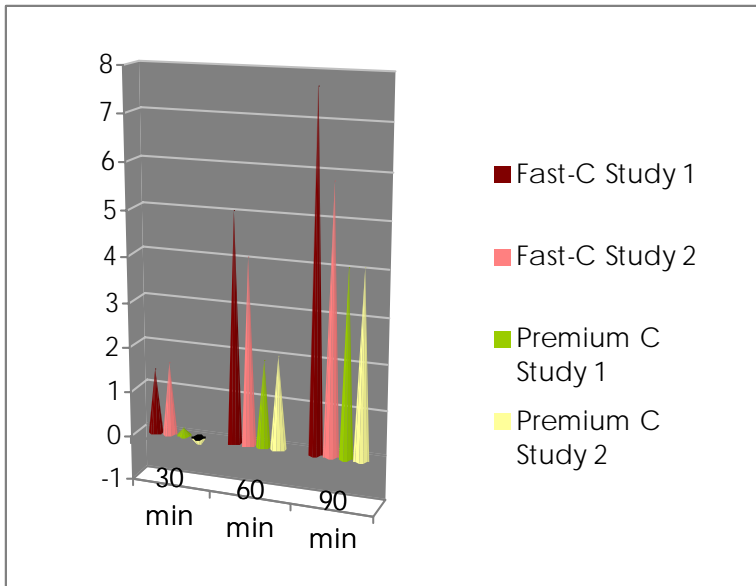

You know what Vitamin C
does. We know you want it to
work faster... *Fast-C*TM delivers.

The benefits of Vitamin C are widely understood especially when it comes to supporting the immune system. When you need Vitamin C to deliver results, deliver Vitamin C faster with Fast-CTM. Fast-C utilizes AlkemyTM, a patent pending blend of all natural alkalizing GRAS minerals. This yields an acid *neutralized* Vitamin C formulation, a step ahead of buffered forms of Vitamin C. Fast-C is also the only Vitamin C ingredient licensed to incorporate BIOPERINE®, a multi-patented natural ingredient that has been shown to improve the bioavailability of a variety of dietary ingredients. Fast-C is the first (and only) Vitamin C formulation shown in *two* US-based clinical studies (at a distinguished pharmaceutical research center) to be faster absorbed than a leading premium Vitamin C, and yet be *equally* retained by the body. *Fast-C: first, faster, and only from Scientific Food Solutions & the E.T. Horn Company.*

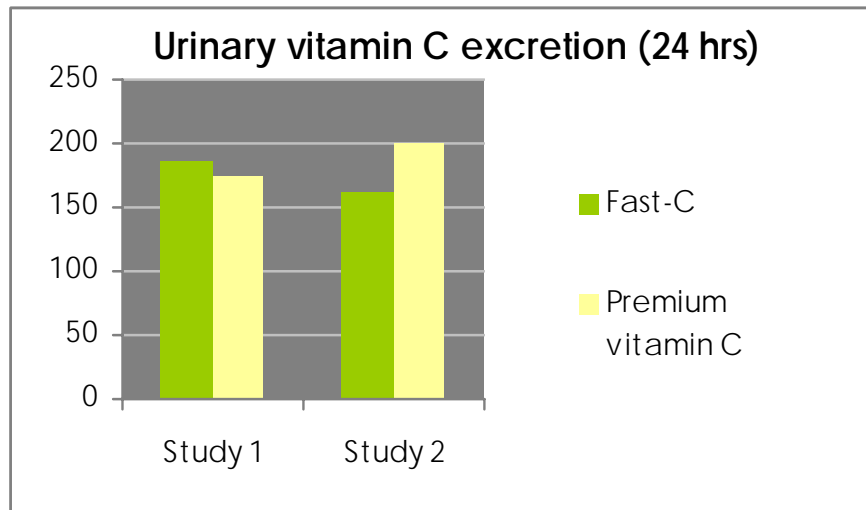

Fast-C™ delivers *faster!* The proof is in the science...

Faster delivery of Vitamin C in the first 90 minutes – reproducibly & reliably faster

It's not just how much your body absorbs...but how much your body *retains*

Fast-C, an Alkemy bioactive product, is exclusively distributed by The E.T. Horn Company. For more information, call (800) 442-4676.
